

## CUSTOM ORDER DETAILING THROUGH MOBILE APP

1. In the customer's account, select

### New Order --> Custom

2. You will be taken through a series of screens that will allow you to detail the garments you are collecting, one at a time.

**If required**, adjust the garment's price, notes, barcode and enter order notes/instructions. If any of these are not required, skip through them by tapping the blue Next button on the bottom right hand corner of the screen. For every new garment, repeat from Step 1.

3. Once all garments have been detailed, you will see an order created per item. Tap the Done icon and complete the stop as usual.
