Detailing for a Specific Brand

Josh Nye

2 years ago · Updated

Follow

If you would like to restrict a station so that it can only create orders for a specific brand follow the instructions below. This is useful for when you do not want a customer's brand to change and are detailing at a central plant or location that does not belong to the customers' current brand.

1. Click on the store and station name in the top right corner of the screen.

Help

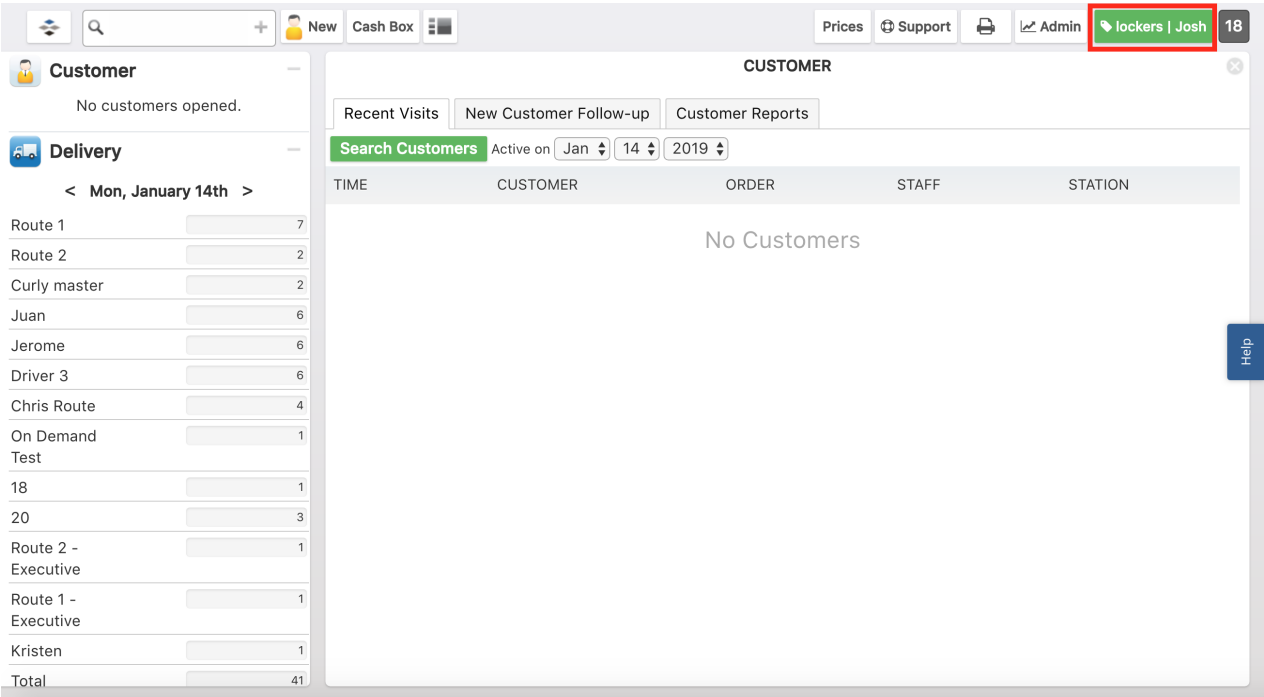

The screenshot shows the SMRT Systems Help Center interface. The top navigation bar includes buttons for 'New', 'Cash Box', 'Prices', 'Support', 'Admin', and a button labeled 'Moller Test Store: Moller Counter' which is highlighted with a red box. Below the navigation bar, the left sidebar contains sections for 'Customer' (No customers opened.) and 'Delivery' (Mon, January 14th). The main content area is titled 'CUSTOMER' and displays a table with columns: TIME, CUSTOMER, ORDER, STAFF, and STATION. The table is currently empty, showing 'No Customers'. A 'Search Customers' button is visible above the table, along with filters for 'Active on' (Jan 14, 2019).

2. Click the Detail for Specific Brand button and select the brand you are detailing for.

The screenshot shows a modal window titled 'Josh N at Moller Test Store: Moller Counter'. Inside the modal, there is a button labeled 'Detail for specific Brand' with a downward arrow. A dropdown menu is open below this button, displaying three options: 'eliteairlineservices', 'messagetest', and 'lockers'.

3. Once you've selected the brand the button in the top right will display the brand name you are detailing for and change to

green.

4. If you want to disable detailing for a specific brand, simply click on the green button and disable the detailing for that brand from the same list you selected it from.
