Follow

1. Open app and select route.

2. Select "Load" tab. Orders for the route and their locations are displayed on-screen.

3. Scan tickets as orders are loaded into van. Icons will turn green to indicate they are in van.

4. Switch to "Deliver". Tap first order to begin route.

5. Select "Go To" for turn by turn directions.

6. Scan bags on delivery to customer. Orders will disappear from list. If there are no pickups, skip ahead to step 9.

7. To add a pickup, select "New."

8. A drop ticket for the new order will print. Put this with the pickup.

9. Select "Done," then confirm to complete stop.
